

As OCM embarks in 2009 there couple pressing issues we would plea your help. The # 1 priority of OCM is feeding project that has been going for 10 years with your help. With hunger looming in Kenya and millions people affected by starvation it is of paramount importance that the project continue. The project on the other hand has become very expensive due food prices increases and without monthly regular donations we are pressed to the limit. We are requesting individuals who are willing to commit monthly donations towards this vital project. A while ago I challenged you to skip a meal and feed a hungry child. Many of you responded and then you abruptly stopped. We need your help now more than ever. **What is a cost of a regular restaurant meal I ask?** This is the challenge..... if someone volunteers to buy you a meal tell them you have a better idea. Please let's purchase several meals for kids in **Nakuru Kenya**.

We are on track of plowing for wheat sowing season at our new property. This will help our feeding project as we harvest the wheat in couple of months. Our investment required runs around **\$3,000.00**. Help us sow the wheat for our kids. This will start a self-supporting goal for OCM and the children projects. The **\$3,000** is needed as soon as possible so we can act quickly. **Will you join in assist?**

We are also planning a summer trip where we will be involved in the construction of our guest house at the orphanage site. A fund needed is for the foundation, bricks, roofing, cement and windows.

We invite anyone willing to join us this summer for a trip of your lifetime. Soon as dates are confirmed we will post them at our website.

Feel free to donate at our secure website [www.ocministries.org](http://www.ocministries.org) and as always all gifts are tax deductible as allowed by law. Or mail checks to **OCM Post office box 1663, Indian Trail, NC 28079** and thank you for your love and support.
